Proceedings Volume 9

By Colorado Scientific Society

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 134 pages. Dimensions: 9.7in. x 7.4in. x 0.3in.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1910 edition. Excerpt: . . . we are beginning to think of gross matter, electricity, and ether as different manifestations of the same thing--call them all ether if you like. Even so we should be far from an ultimate understanding of things for this one primordial substance would be as mysterious as ever. But having made such great advances into this unknown and apparently unknowable region, may we not hope some day to go farther and even possess it utterly For a more extended discussion of the ideas presented above, the following works may be consulted: Electrons--Sir Oliver Lodge; George Bell and Sons, 1906. Modern Electrical Theory--Norman Campbell; Cam. Press, 1907. Electricity and Matter--Sir J. J. Thomson, Scribners, 1904. The Corpuscular Theory of Matter--Sir J. J. Thomson; Constable and Co. , 1907. Modern Theory of Physical Phenomena--Rhigi Trowbridge; Macmillan, 1906. Modern Views of Electricity--Sir Oliver Lodge; Macmillan, 1907. Conduction of Electricity...
