Jilin Fine Arts Publishing House the dawn early childhood. kindergarten diverse development course and operation in the field of books (Vol.2) 3: Mathematics Workbook (young convergence under) Style-rich. innovative. knowledge penetration interesting features. ladder training at the same time. so that children fully enjoy the learning process knowledge. in order to fully enhance children's smart. rich kindergarten children mathematical knowledge. to lay a good foundation for future mathematics learning. Contents: spring gift small rabbit's home (azimuth understanding) winter jasmine open (less than 20 binary adder I) tree planting the binary adder (less than 20) small stores (20 less than the abdication subtraction) than the number (20 less than the abdication subtraction II) - like (conserves) animal pals animal gatherings (20 binary adder I) simple count (less than 20 binary adder II) fight fight to see the (whole and part) love playing seesaw (equivalent conversion) little frog (20 abdication subtraction I) A simple calculation (20 abdication subtraction II) bird (addition and subtraction within 20 hybrid computing)...

Reviews

It is simple in read easier to understand. I am quite late in start reading this one, but better then never. Its been designed in an exceptionally easy way in fact it is just following i finished reading through this publication where basically transformed me, alter the way i really believe.

A very amazing publication with perfect and lucid information. We have read through and that i am certain that i will planning to study once more yet again in the future. You will not really feel monotony at anytime of the time (that's what catalogues are for about should you question me).
