Learning Outside the Lines: Two Ivy League Students with Learning Disabilities and ADHD Give You the Tools for Academic Success and Educational Revolution

By Jonathan Mooney and David Cole. Foreword by Edward Hallowell

Simon & Schuster, 2000. Softcover. Book Condition: New. Every day, your school, your teachers, and even your peers draw lines to measure and standardize intelligence. They decide what criteria make one person smart and another person stupid. They decide who will succeed and who will just get by. Perhaps you find yourself outside the norm, because you learn differently.but, unlike your classmates, you have not system in place that consistently supports your ability and desire to learn. Simply put, you are considered lazy and stupid. You are expected to fail. This book is written by two such "academic failures," that is, two academic failures who graduated from Brown University at the top of their class. The authors teach you how to take control of your education and find true success -- and they offer all the reasons why you should persevere. Witty, bold, and disarmingly honest, Learning Outside the Lines takes you on a journey toward personal empowerment and profound educational change, proving once again that rules sometimes need to be broken. 286 pages. 2000.
