Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1919 Excerpt: .Christi, Texas, reports a bird enemy of the cabbage looper (Autographa brassiccs). He is quoted by Dr. F. H. Chittenden of the Bureau of Entomology to the effect that a bird known locally as jackdaw (Megaquiscalus major) (probably the great-tailed grackle) was particularly fond of these cabbage loopers. These birds alighted in the 1 Massachusetts State Board of Agriculture, Crop Report, Bulletin V, 1894, p. 30. - American Naturalist, Vol. XIV, February, 1880, p. 130. - Economic Ornithology, Bulletin No. 4, Massachusetts Department of Agriculture, 1920, pp. 29, 30. fields and fed on the larvae daily until they cleaned them up and saved the crop.1 Mr. J. L. Harris reports that another cabbage pest, the diamond-back moth (Plutella maculipennis) was extirpated from his patch by a flock of blackbirds.2 The larva of the snow-white linden moth (Ennomos subsignarius) no doubt is eaten by many native birds,...

Reviews

A brand new electronic book with a new standpoint. It is writter in basic phrases rather than confusing. Its been designed in an extremely basic way which is merely right after i finished reading through this publication where basically altered me, change the way i believe.

-- ***Kitty Crooks***

These sorts of book is the greatest book offered. This can be for all those who statte that there had not been a really worth reading. I am just quickly could get a pleasure of reading a written ebook.
