ANALYSIS AND ASSESSMENT OF CARDIOVASCULAR FUNCTION

Book Condition: New. Publisher/Verlag: Springer, Berlin | The objective of this book is to provide the researcher and clinician with the recent developments in the analysis and assessment of cardiovascular func tion. The chapters are organized into sections that correspond with the various anatomical levels of the cardiovascular system. To a large extent, recent focus on the cardiovascular system function has been directed at the molecular level to the near exclusion of the tissue and organ function. While this may...
